THE PHILOSOPHY OF THE GOLDEN LEAF HOTELS & RESIDENCES

All Golden Leaf Hotels & Residences combine the principles of a hotel chain with those of independent private hotels. The entire organisation attaches great importance to uniform guidelines and **standards**, for example in the areas of facilities and service. Regular, independent tests are carried out in order to maintain these standards. On the other hand, each Golden Leaf Hotel & Residence retains its own **individuality** as well as a distinctive regional character. Whether it is the traditional Bavarian style in Munich, the Bauhaus style in Frankfurt or the modern yet comfortable style of our Stuttgart hotel: each is unique in its own way.

The Golden Leaf Hotels & Residences thus provide the ideal framework for a reliable business relationship without simply offering a strictly uniform product. A reasonable price performance ratio is appropriate to the upper comfort hotel class, in keeping with our long-held motto: **medium category does not equal mediocrity.**

The philosophy of the Golden Leaf Hotels & Residences is reflected in the **basic facilities** of all our rooms:

- bathroom area with shower/bath, WC and hair dryer
- excellent sleeping comfort with double-sprung mattresses and eiderdown bedding
- colour satellite TV with German and foreign language channels,
- pay TV
- direct dial telephone
- fax and modem connection point, W*LAN
- generous work space for business people
- minibar

In addition, all hotels provide **smoking** and **non-smoking** rooms (in some cases entire floors), as well as **rooms suitable for those with allergies.**

For our more demanding guests we provide **club rooms.** The largest and most attractive rooms of each hotel have been selected for this room category and include various additional items such as cosmetic mirror, kettle for making coffee, tea and chocolate, bath robe and slippers.
